Click Next Step.

2

Add as much additional information as possible to help the landlord improve your stay.
Click Continue.

3

Select your payment method and enter your discount code in the box below.
Click Continue and done!

About us

Erasmusu is the largest online community of international students in the world where we help you to find your ideal accommodation months before your adventure abroad so you can enjoy your experience with complete peace of mind and security.

Accommodations advertised on our website are verified and personally visited by our Homecheckers, who provide us with quality photos and videos so you have all the necessary information about the property and the neighborhood. It will be as if you were there!

You can choose and book your accommodation quickly, easily, and 100% online. Also, if you need it, we help you to build your experience from scratch because we know that how, when, and where are important.

How it works

Choose your destination city and the dates of your stay. Find your fav accommodation and click on "Request to book". Complete all the details of the booking form and enter the discount code in step 3, as we show you in the images.

And don't worry, you won't pay anything until the owner accepts the booking!

How the Booking Process works

Once you send your booking request, we will send it to the owner. Keep calm, they have 24 business hours to respond.

When the landlord accepts your booking request, we will notify you by email and we will share the contact information. It will be at this time when we will charge the payment of the first month's rent and the booking fee.

If the landlord rejects your booking request, don't worry! Our team will come to the rescue and offer you similar accommodations. But of course, you can also request a full refund.

Move-in Policy

We accompany you throughout the process. Once you arrive at the accommodation, you will have 24 hours to notify Erasmusu of any significant deficiency or discrepancy in the property. You are not alone, our team will help you find a solution.
